PRESENTATION

*Experienced, strategic thinking leader,
who has achieved pronounced
and consistent results through the latest 25 years.*

Through employment in leading positions in multinational companies, I have acquired unique experience in management of organisations, which markets complex and project oriented solutions to the healthcare sector and private companies.

Characteristic for the latest management positions has basically been a radical need for strategic thinking, innovation, and creation of results. My competence profile can therefore in short be described as:

- Business development
- Company turnaround
- Change Management, Quality Management, and Process Optimisation
- Personnel development
- Customer Service in the broadest sense.

Latest employments:
